Frequently Asked Questions

Q: How long does it take to go through the course?

A: It depends on the person and the time they commit. On average the feedback I get is that people go through it in 3-4 days.

Q: Which of the available courses (from yourself or others) do you recommend if I just have a passing interest in stage hypnosis?

A: If you are not interested in actually performing stage hypnosis than I would recommend a different course than mine. You could get one that is less expensive and covers much less material and no marketing.

Q: Which of the available courses (from yourself or others) do you recommend if I want to perform stage hypnosis and possibly work for money?

People tell me my course is much more advanced than others and covers much more. If you are looking to make money either part-time or full-time and do actual performances, then I hear my course is a good choice.

One thing thing you should know is that my course is not some fancy production. I don't use green screen or any Hollywood production awards but people tell me since I cover the marketing aspects and so much about the challenges, it gives them confidence and knowledge to know how to deal with any situation. They also tell me they really like the audience interaction I have with the live training attendees.

Really though, I'm certain there is much to learn from every course so ultimately I recommend you get them all.

Q: Do you have hours of practice from your students on your videos?

A: No. That would be a waste of time. :) It is a live class though so you get the excitement of going through it with others.

Home Study viewers tell me that is one of the best things about the course, they get to watch the interaction with me and the students. It is not a talking head video. They get to see demos, and see the attendees confidence soar, waiver and then grow rock solid but we have edited out the individual practice sessions.

What people really like though is when they see a few of the students demonstrate stuff for the entire class. That is extremely valuable because you will probably make the same mistakes they make. Then to see me make corrections will be valuable. If you only see me demonstrate, you only see the right way. To see some of the problems as well makes you much more aware of them so that you don't make them yourself.

Q: Do you have a guarantee?

A: I know a lot of hypnosis products are not guaranteed but we offer a full 60 day no questions asked guarantee. You must be happy or I don't want you to keep it.

Q: Do you have any testimonials?
